SONU JANGIR

MERN STACK DEVELOPER • BACKEND ENGINEER

Jaipur, Rajasthan, India • +91 6377184793 • sonujangir992002@gmail.com

Portfolio: sonu7788.github.io/PortFolio_nextjs • **LinkedIn:** in/sonujangirpilani • **GitHub:** Sonu7788

PROFESSIONAL SUMMARY

MERN Stack Developer with 6 months of hands-on experience designing and deploying production-ready web applications, scalable REST APIs, and database-driven architectures across healthcare, hyperlocal logistics, and e-commerce platforms. Proficient in React, Next.js, Node.js, Express.js, PostgreSQL, MySQL, MongoDB, and PostGIS. Demonstrated expertise in building role-based authentication systems (JWT/RBAC), third-party payment workflows (Razorpay), push notifications (Firebase FCM), and automated server deployments using PM2 on Linux environments.

TECHNICAL SKILLS

Languages:	JavaScript (ES6+), TypeScript, Java (OOP), SQL, HTML5, CSS3
Frontend:	React.js, Next.js, Tailwind CSS, Redux, Context API, Responsive UI, Component Architecture
Backend & APIs:	Node.js, Express.js, RESTful APIs, JWT, RBAC, Custom Middleware, Request Validation, Error Handling
Databases & ORMs:	PostgreSQL, PostGIS, MySQL, MongoDB, Sequelize ORM, Mongoose, Database Indexing, Migrations
Integrations:	Razorpay Payment Gateway, Firebase (FCM), Nodemailer/SMTP, File Uploads, Third-Party REST APIs
Tools & DevOps:	Git, GitHub, Postman, PM2 Process Manager, Linux/Ubuntu CLI, VS Code, Cursor, Claude AI
Core CS Concepts:	Data Structures & Algorithms (DSA), OOP, DBMS, Computer Networks, Operating Systems

PROFESSIONAL EXPERIENCE

Objectg Square, Jaipur — MERN Stack Developer — Internship + Full-Time | 6 Months

- **RESTful API Architecture:** Engineered robust backend APIs with Node.js, Express.js, PostgreSQL, MySQL, and MongoDB, standardizing request validation, custom middleware, and error handling protocols.
- **Frontend Dashboards:** Developed responsive web interfaces and admin dashboards in React.js and Next.js, integrating complex application state with modular component architecture and REST endpoints.
- **Security & Authorization:** Implemented secure authentication and fine-grained Role-Based Access Control (RBAC) utilizing JSON Web Tokens (JWT) to safeguard multi-tier user workflows.
- **Integrations & Deployment:** Integrated Razorpay for online transactions and Firebase Cloud Messaging (FCM) for push alerts; configured PM2 process manager for continuous uptime on Linux cloud servers.

KEY TECHNICAL PROJECTS

DrMate — Healthcare & Clinic Management Platform — React/Next.js, Node.js, Express.js, Sequelize, MySQL

- Engineered clinic management workflows spanning doctor-patient scheduling, consultation records, diagnostic orders, and digital billing modules.
- Built multi-tenant role-based access control (RBAC) with permission-checking middleware to enforce granular data visibility across clinic staff.

Hyperlocal Logistics & Rider Dispatch Engine — Node.js, Express.js, PostgreSQL, PostGIS, Firebase FCM

- Architected a geospatial delivery engine with PostgreSQL and PostGIS to execute real-time coordinate distance queries and automated rider assignment.
- Designed parcel lifecycle tracking with live order status transitions and event-driven mobile push alerts via Firebase Cloud Messaging.

ApnaVyapar — Multi-Seller Commerce & Merchant Platform — Node.js, Express.js, Sequelize ORM, MySQL

- Developed merchant APIs for vendor onboarding, KYC verification, catalog management, multi-seller cart checkout, and multipart image uploads.
- Implemented transactional order splitting, real-time inventory locking, and item-level shipment tracking for multi-vendor fulfillment.

Society & Resident Enterprise Management System — Node.js, Express.js, PostgreSQL, Sequelize ORM

- Built administrative backend modules managing multi-wing residential units, amenity bookings, maintenance billing, and visitor approval workflows.
- Structured relational schemas with foreign key constraints, migration scripts, and database indexing to optimize multi-entity relational queries.

EDUCATION

Master of Computer Applications (MCA) — University of Engineering and Management (UEM), Jaipur — 2024 – 2026 | CGPA: 8.0 / 10

Core Coursework: Data Structures & Algorithms, Database Management Systems (DBMS), Object-Oriented Programming, Computer Networks, Operating Systems
